PARTIAL REIMBURSEMENT FOR UNUSED SICK LEAVE

A. As of December 31, 1977, total credits for unused sick leave shall be computed for each employee as follows:

1. Total number of sick days not used by employee from beginning of employment multiplied by the average daily earnings rate for the period beginning January 1, 1968 (or the actual day of permanent employment, if after January 1, 1968) and ending December 31, 1977.

a. The total number of sick days not used shall be determined by subtracting the actual number of sick days used from the beginning of employment to December 31, 1977 from the total number of sick days which an employee has earned for the same period. Days earned shall be computed at one day for each calendar month in the first year of employment and 15 days per year for each subsequent year.

b. The daily earnings rate in each year shall be determined by dividing the total base pay as reported each calendar year to the respective pension system by 260. Total pay reported to the pension system includes base pay plus longevity and educational increments which are paid biweekly in the same manner as base pay.

c. The average daily rate from January 1, 1968 (or the actual day of permanent employment if after January 1, 1968) and ending December 31, 1977 shall be determined by totaling the

daily rates calculated for each year pursuant to the above paragraph and dividing the number of years from January 1, 1968 (or from the actual date of employment) to December 31, 1977.

B. For each calendar year subsequent to December 31, 1977:

1. The difference between the number of sick days used and the number of sick days earned shall be added or subtracted from the total number of sick days calculated above.

2. The daily earnings rate for each year, as determined above, shall be added to the total of the wage rates for the prior year and the actual date of employment to December 31 of the year in order to establish a new average daily earnings rate.

3. If the number of sick days used in such calendar year exceeds fifteen, the difference shall be multiplied by the average earnings rate computed as of December 31 of the prior year and then deducted from the total credit for unused sick leave as determined by Section A-1.

4. If the number of sick days used in such calendar year is less than fifteen, the difference shall be multiplied by the earnings rate of the current year and added to the total credit for unused sick leave.

5. For each subsequent year, the beginning total credits shall be the total as of December 31st. of the previous year as determined by subsequent B-3 preceding.

C. At the time of retirement or death of employee, the partial reimbursement for unused sick leave shall be paid to the

estate or individual at the rate of 50% of total credits from unused sick leave.

D. 1. The retiring employee shall notify, in writing, the Administrator, of his/her intention to retire no later than the 30 day of December of year preceding his/her contemplated retirement so that the Borough may arrange for said payments to be included in the budget for the year of contemplated retirement.

2. Failure to file said notice as indicated may cause said payment to be deferred by the Borough to the following year.

3. Retirement shall be such as is defined in the statutes of the State of New Jersey and the case law interpreting the same.

4. Any earned partial reimbursement for unused sick leave shall be paid to the deceased employees' estate in accordance with the formula previously set out in the within section.

E. The partial reimbursement for unused sick leave payment provisions of the within agreement shall not be the subject of any future agreements of the Borough of Belmar with its employees.
